PYTHON SKILLS

- Python (OOP, Data Structures)
- FastAPI / Flask / Django
- REST API Development
- Backend Automation
- API Integration

TOOLS & TECH

- Git & GitHub
- Docker
- VS Code
- HTML / CSS / JS (Basic)
- REST APIs

CERTIFICATIONS

✓Python

Mimo · Jan 2026

✓Python AI Development

Mimo · Jan 2026

✓AWS Certified Cloud Practitioner

✓Intro to Frontend Dev

EDUCATION

M.Sc. Information Technology

Python · OOP · Data Structures

KEY STRENGTHS

- Problem-solving mindset
- Strong communication
- Fast learner & adaptable

PROFESSIONAL SUMMARY

Results-driven Python Developer (Fresher) with hands-on experience building backend systems using Python, FastAPI, Flask, and Django. Proficient in OOP, data structures, REST API development, and backend automation. AWS Certified with strong analytical and problem-solving skills. Eager to contribute to real-time projects, learn in a fast-paced environment, and grow within a dynamic team.

TECHNICAL SKILLS

Languages: Python · HTML · CSS · JavaScript (Basic)

Backend: FastAPI · Flask · Django · REST API · Backend Automation

Concepts: OOP · Data Structures · Problem Solving · Algorithm Design

Tools: Git · GitHub · Docker · VS Code · REST APIs

Cloud: AWS (Certified Cloud Practitioner)

EXPERIENCE

Python & Backend Web Developer · Freelance

Recent

- Developed Python-based web applications and REST APIs delivering real-world client functionality
- Applied OOP principles and data structures to write clean, maintainable backend code
- Integrated third-party APIs and automated backend workflows for improved efficiency
- Debugged and resolved complex programming issues through strong analytical reasoning
- Communicated requirements clearly with clients and delivered scalable solutions on time

PROJECTS

► Python-Powered Backend Portfolio Website

- Built with Python web principles; demonstrated OOP, REST API integration, and backend architecture skills
- Improved recruiter engagement through optimised content and performance-focused code

► Contact Form with Backend Validation (Formspree + Python)

- Implemented full Python-side input validation, error handling and fallback email options
- Reduced missed client inquiries significantly through reliable backend communication logic

► REST API Development & UI Optimisation

- Developed and integrated REST APIs; refactored backend logic using OOP and data structure best practices
- Delivered clean, well-documented Python code following industry standards for scalability

WHY I FIT THIS ROLE

✓ Basic Python + OOP + Data Structures · ✓ Python & Python AI Dev certified (Mimo) · ✓ Strong communicator, fast learner
