

ISHFAQ AHMAD DAR

Data Analyst · Python · SQL · Power BI · EDA · Business Intelligence

✉ dar1.ishfaq36@gmail.com | ☎ +91-9103549500 | LinkedIn | GitHub | Hyderabad, Telangana

PROFESSIONAL SUMMARY

Results-driven **Data Analyst** (MSc IT, 2025) with hands-on expertise in **Python, SQL, and Power BI**, delivering end-to-end analytics across retail, healthcare, and e-commerce domains. Experienced in analysing **500K+ datasets**, building KPI dashboards, performing **RFM segmentation**, hypothesis testing, and ETL pipelines. Seeking a **Fresher / Junior Data Analyst or Business Analyst** role to drive data-informed business decisions.

EXPERIENCE

Data Analytics Intern | 360DigiTMG, Hyderabad

2024

- Led **Medical Inventory Optimisation** project — cleaned and analysed datasets to surface procurement bottlenecks.
- Automated data cleaning in **Python (Pandas/NumPy)**, reducing manual effort by ~40%.
- Built **Excel dashboards** (Pivot Tables, advanced formulas) to track inventory KPIs for stakeholder reviews.
- Delivered **3 data-backed recommendations** on reorder thresholds adopted by the project team.

PROJECTS

Customer Revenue & Retention Analysis

Python · SQL · Power BI · Statistics

- Analysed **400K+ retail transactions** to detect churn patterns and revenue leakage using Python & SQL.
- Applied **RFM segmentation** to classify customers into High/Mid/Low-value tiers for targeted campaigns.
- Validated findings via **T-test hypothesis testing** ($p < 0.05$) ensuring statistical significance.
- Built **Power BI dashboard** with 8+ KPIs: churn rate, CLV, revenue trends, and segment metrics.

E-Commerce Revenue Intelligence Analytics

Python · SQL · Matplotlib · GitHub

- Processed **100K+ transactions**; uncovered top 20% of customers generated **65%+ of revenue** (Pareto).
- Conducted seasonal trend analysis and product-category ranking to optimise marketing allocation.
- Computed AOV, CLV indicators, and purchase-frequency cohorts to quantify engagement depth.
- Maintained reproducible pipeline on **GitHub** with fully documented Jupyter Notebooks.

Healthcare Sales & Returns Analytics

SQL · Power BI · Excel

- Wrote advanced **SQL** (CTEs, Window Functions, Joins) to clean and transform pharmacy datasets.
- Designed **Power BI dashboard** with top-drug rankings, department revenue, and return-rate KPIs.
- Standardised ETL logic, reducing data inconsistencies by ~30% across reporting pipelines.

Factory Downtime & Workforce Equality Analysis (Accenture / Forage)

Tableau · Excel · JSON

- Built **Tableau dashboard** from JSON telemetry across 4 factories; identified Osaka + Boiler machines as top failure points.
- Classified workforce equality scores (Fair / Unfair / Highly Discriminative) for HR analytics reporting.

Tata iQ Data Analytics & AI Strategy Simulation (Tata Group / Forage, May 2026)

EDA · GenAI ·

Predictive Modelling · AI Strategy

- Conducted **EDA using GenAI tools** to assess data quality, identify risk indicators, and structure insights for predictive modelling.
- Proposed a **no-code predictive modelling framework** to assess customer delinquency risk, leveraging GenAI for model logic and evaluation.
- Designed an **AI-driven collections strategy** using agentic AI and automation, incorporating ethical AI principles and regulatory compliance.

EDUCATION

MSc — Information Technology

Islamic University of Science & Technology

Kashmir · 2023–2025

Data Analytics · Big Data · ML · DBMS · Statistics

BSc — Non-Medical

Cluster University of Srinagar

2020–2023

TECHNICAL SKILLS

LANGUAGES & QUERYING

Python SQL PostgreSQL

PYTHON ECOSYSTEM

Pandas NumPy Matplotlib
Seaborn Scikit-learn

BI & VISUALISATION

Power BI Tableau DAX
Excel Advanced Pivot Tables

DATA & ANALYSIS

EDA ETL Data Cleaning
RFM Segmentation Statistics
Hypothesis Testing KPI Reporting

TOOLS

Jupyter Git/GitHub VS Code

CERTIFICATIONS

- **Data Analytics** — TuteDude
- **Power BI** — Simplilearn
- **SQL** — Simplilearn
- **Python** — Mimo
- **Data Analytics & Visualisation** — Accenture / Forage (Virtual)
- **Data Analytics & AI Strategy** — Tata Group / Forage (May 2026)

KEY HIGHLIGHTS

- **500K+ records** analysed across 4 domains
- **3+ Power BI & Tableau** dashboards delivered
- Statistical validation (T-tests, RFM) on real data
- Industry exposure — **Accenture & Tata** simulations
- Open to **remote / hybrid / relocate**

SOFT SKILLS

- Analytical Thinking & Problem-Solving
- Data Storytelling & Stakeholder Reporting
- Attention to Detail
- Cross-functional Collaboration
